PROFILE

Full Stack Developer with experience building scalable backend systems, responsive web applications, authentication systems, REST APIs, and AI-powered web solutions using modern JavaScript technologies including React.js, Node.js, Express.js, and MongoDB.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database & Cloud: MongoDB, MongoDB Atlas, Cloudinary

Tools & Platforms: Git, GitHub, Render, Postman, VS Code

Core Skills: Frontend Development, API Integration, Backend Architecture, Authentication Systems, State Management, Debugging, Clean Code Practices

PROJECTS

Education Platform (Full Stack Project) - *Full Stack Developer* | 01/2026 - Present

- Built a production-style full stack Education Platform using React.js, Node.js, Express.js, and MongoDB with scalable frontend and backend architecture.
- Implemented secure JWT authentication and protected route systems for role-based user access and session management.
- Built admin dashboards, question management systems.
- Integrated Cloudinary for PDF upload, storage, and file management features with optimized backend handling.
- Designed scalable RESTful APIs with modular backend architecture and deployed backend services using MongoDB Atlas and Render.

Hospital Management Website - *Frontend Developer* | 01/2026

- Created a responsive Hospital Management Website using React.js and Tailwind CSS with a modern and user-friendly interface.
- Built 10+ reusable UI components to improve scalability, maintainability, and frontend consistency across the application.
- Designed appointment booking interfaces, service sections, and responsive layouts optimized for mobile, tablet, and desktop devices.
- Implement clean component-based architecture and modern frontend development practices to enhance user experience and performance.

Weather App - React Developer | 01/2025

- Built a real-time weather application with external API integration.
- Integrated dynamic UI updates and responsive layouts.
- Worked with API data handling and frontend state management.
